

Table of content

Prefaces	3 - 5
The hare, the tortoise and hydrogen	9
A question of energy	
Force in action... Energy is everywhere	10-11
From well to wheel... the flow of energy	12-13
Energy... as an agent of progress	14-15
Using too much energy... puts our environment at risk!	16-17
Possible solutions... a wiser use of our current energy sources	18-19
Another solution... Carbon-free energy	20-21
The hydrogen solution	
A promising solution... hydrogen!	22-23
From balloons to rockets... the long history of hydrogen!	24-25
The internal combustion engine... fuelled by hydrogen!	26-27
Hydrogen to produce electricity... with fuel cells!	28-29
Different types of fuel cells... for diverse applications	30-31
Applications	
Hydrogen on the road...cars, tramways and the hydrogen train	32-33
On the sea and underwater... hydrogen for navigation	34-35
In the air... The hydrogen plane	36-37
In space... Hydrogen as the fuel of choice for rockets	38-39
Electricity from hydrogen... for greater autonomy	40-42
Hydrogen as energy vector	
Is hydrogen an ideal energy vector?	43
Producing hydrogen...with greenhouse gas emissions	44-45
Producing hydrogen without CO ₂ ... from water, nuclear energy, biomass or photosynthesis	46-47
Hydrogen... a partner for renewable energies	48-49
Compression, adsorption and absorption of hydrogen... Storing hydrogen as a gas ..	50-51
Liquefaction... to store more hydrogen	52-53
Transporting hydrogen... in bottles or by pipelines	54-55
Distributing hydrogen... at service stations	56-57
The safe use of hydrogen... The risks of hydrogen	58-59

The future of hydrogen

The hydrogen economy... pathways to commercialization	60-63
What can be done... to use hydrogen as a fuel?	64-65
What is being done?... Showcasing and developing hydrogen	66-67

Conclusion	68-70
-------------------------	-------

Annex 1. What is energy?	71
Work is energy... mechanical energy	72-73
Heat is energy... thermal energy	74-75
Energy comes in all shapes... the diverse forms of energy	76-77
Energy is ever-changing... but always conserved!	78-79
Transforming thermal energy... Carnot's principle	80-81

Annex 2. What will be the price of hydrogen at the gas station?	83-88
------------------------------------------------------------------------------	-------

Glossary	89-90
-----------------------	-------

Abbreviations and acronyms	91
-----------------------------------------	----

Units and symbols	92-93
--------------------------------	-------

Acknowledgements	93
-------------------------------	----

More about hydrogen	94
----------------------------------	----
